SCRIPTURAL CONTEXT

Miracle stories

The miracle stories of the three synoptic gospels (Mark, Matthew and Luke) generally fall into four categories of miracle: healing miracles (healing of physical ailments and disease); exorcism miracles (driving out evil spirits – often associated with a form of healing); resuscitation miracles (bringing people back to life); and nature miracles (Jesus appears to contradict the laws of nature – walking on water, multiplying food and calming a storm). Each type of miracle story tends to have its own literary structure and being able to recognise the type of miracle being described assists the interpretation of the gospel account.
